

My Institution

My institution's name is SGM Public School, Rardhana (Meerut) and there, I learn many different subjects for my school life as well as real-life also.

The aim of my institution is to give the best education for good and strong academics as well as for real-life and preparing the mindset of students for future leadership in different fields.

My institution is making continuous awareness for meaningful education in the rural areas to break the thinking barrier of students to empower them according to their potential in their life.

I am totally grateful to my institution, teaching passionate teachers and aware parents and guardians, and the leaders of the SGM family.

I feel proud to be an SGMitian and one day I will make proud to the entire SGM family.
